

# O'BrienEngineering, Inc.

specializing in the complex™

**O'BrienEngineering, Inc.** (OEI) is an engineering, environmental, and project/program management firm located North Texas. OEI was founded in 1987 as a specialty civil engineering firm providing hydraulic and hydrologic modeling and analysis. While water resources remains a core strength today along with GIS and strategic regulatory permitting, we have diversified by offering capabilities in architecture, multidiscipline engineering (structural, mechanical, electrical, and plumbing), staff and professional services support, construction phase services, and construction management. We offer a high degree of applied expertise coupled with a rapid response time on all of our projects. Committed to providing high quality services on-time and within budget, OEI is a certified Service Disabled Veteran Owned Small Business (SDVOSB, vetbiz.gov).
