

O'Brien Team Highlights

Team has depth, focused expertise, & broad national reach -

- Senior Project Manager and Project Managers have decades of multidiscipline design and project management experience
- Team member firms have a history of working together
- Excellent past performance serving USACE (specifically SWF), DHS, and other federal customers
- Experienced CBP design team
- Significant SDVOSB firm involvement
- Nationwide large business support firms lending deep reachback capabilities
- 250 firm locations throughout the US and its territories

O'Brien Engineering, Inc. (OEI) has been serving the Fort Worth District and its customers, including DHS Customs and Border Protection, for over 10 years. We believe in and practice in-office collaboration, while we routinely execute and efficiently manage multi-office project successes. OEI works to develop excellent solutions and we are relentlessly developing a corporate culture of continuous education, innovation, environmental responsibility, and engineering and design excellence. Well-established and continuously operating since 1987, OEI is a strong, reputable Service Disabled Veteran Owned Small Business (SDVOSB).
